## Important Information

### Regarding Maintenance of Cemeteries

Cemeteries that are under Avoyseinu's Maintenance Program have their grass cut at 4 designated times per year. In most cases that is sufficient; sometimes however, more is necessary.

In rainy season the grass could grow back in as little as 2 weeks.

Before traveling to a cemetery, make sure to find out its exact address, information about the guard on duty and the combination # of the lock.

Please take care not to break the lock when trying to enter the cemetery.

Please remember to lock the gate upon exiting.

If visiting the cemetery during the night, it is important to give advance notice to the guard on duty.
